This study is part of the Work in a Warming World Project (W3), a SSHRC-CURA research programme

The authors appreciate the financial support received for this project through a Social Sciences and Humanities Research Council of Canada, Community-University Research Alliance (SSHRC-CURA) research grant. W3 is a five-year research project to address the challenge of climate change for Canadian employment and work carried out under the direction of Carla Lipsig-Mummé at York University.
I. Putting Food Sustainability in Context
